## Eclipse's Mobile Storage System

Eclipses mobile storage system is the ideal solution for educational institutions aiming to streamline activity preparation and enhance the learning experience.

- 1 **Iconic Grathnells Tubs:** Known for their durability and versatility, these tubs facilitate easy organisation of science materials. Color-coding by class or subject allows for quick and simple equipment location.
- 2 **Customisable Modular Design:** The storage system can be tailored to accommodate various sizes and types of equipment, from microscopes and beakers to robotics kits and electronics.
- 3 **Mobile and Adaptable:** Featuring lockable heavy-duty castors, the STEM Stacker can be effortlessly moved between classrooms, adapting to the dynamic learning environments of modern education.
- 4 **Multiple Configurations:** Available in one, two, and three-column widths, and in two heights (800mm and 1000mm), the STEM Stacker range offers flexibility to meet diverse storage needs.
- 5 **Secure Storage Options:** Units can be ordered with lockable doors for storing fragile or dangerous materials for added safety.
- 6 **Durable Construction:** Built with moisture-resistant particleboard and melamine finished, the STEM Stacker is designed to withstand the rigors of frequent use.

### Product Features

Grathnells Tray Load Capacity	5kg
Grathnells Tray Gap	102mm
Grathnells Warranty	5 Years
Cabinetry Material	Moisture-Resistant Particleboard, Melamine Finish
Cabinetry Castors	Lockable, Heavy-Duty Castors,
75mm Cabinetry Warranty	2 Years
Cabinetry Country of Origin	Australia

## Gratnells Standard Trays

The iconic Grattells school trays are a staple in learning environments worldwide. Manufactured from fully recyclable Polypropylene (PP), these trays are standardised for seamless integration with typical school furniture, beloved by teachers and technicians, and BSI approved for heavy educational use.

Their talc-filled polypropylene construction provides chemical resistance surpassing that of ABS-based trays in the market, making them ideal for safely conducting science activities. With a semi fire-retardant property at 0.22mm per minute, Grattells trays have found their place in laboratories and prep rooms for over 50 years. Additionally, they feature an anti-static additive, reducing dust attraction.

These trays offer exceptional flexibility in learning spaces, easily moved, and fitted into standardised units. They were specifically designed to maximise storage efficiency within a limited footprint, freeing up more room for educational activities.

Available in a variety of colours for visually stimulating and colour-coded storage, their trademarked design ensures easy access for learners. The standard stocked colours are royal blue, flame red, sunshine yellow, cyan blue, jolly lime, grass green and translucent. To purchase non-listed Gratnells coloured trays, please contact our team for more details. Whether you need to store chemicals, worksheets, stationery, or robotics kits, a Grattells tray provides the perfect solution.
